

Ordinances Ready “How Does It Work?” Video

Script	Potential Visual
<i>Ordinances Ready</i> is the fast, easy way to find ancestors or other family members who need temple ordinances and help them draw near to the Savior.	
One of the questions you may get as you share <i>Ordinances Ready</i> with members of your ward or branch is: “How does it work?”	Picture of bishop sharing Ordinances Ready with a ward member (preferably a youth).
The answer is simple!	
After you select the ordinance you want to perform, <i>Ordinances Ready</i> searches for people needing that ordinance in your temple reservations list and on your family tree.	
When <i>Ordinances Ready</i> finds people needing the specified ordinance in one of these places, you can see how you are related by clicking on the “View Person” and “View Relationship” buttons near the name.	
If no ancestors needing that ordinance are found in your temple reservation list or family tree, <i>Ordinances Ready</i> next checks to see if someone in your ward or stake has shared names needing that ordinance with the temple.	Picture of ward or stake congregation.

From there, <i>Ordinances Ready</i> searches for names shared generally with the temple by Church members around the world.	Picture of people entering an international temple.
These last categories of names may or may not be blood relatives to you, but they are related to your brothers and sisters in your ward, stake, or the Church in general, which adds meaning and purpose to your temple worship!	Picture of international gathering of Saints fellowshipping with one another—maybe from general conference.
As Elder David A. Bednar has said: “It’s fascinating how <i>Ordinances Ready</i> absolutely destroys the myth that all the work in my family has been done.”	Picture of Elder Bednar from Temple and Family History Instruction meeting.
Let <i>Ordinances Ready</i> help you find and provide temple blessings to your family!
