

INT. OPERATION ROOM

A rusty, vaguely other-worldly operating room. Blood is splattered on the metal walls.

SCIENTIST
TZGZ ASMRRR

Pronounced: T-Z-G-Z As-merrr

From the POV of the patient, we see the SCIENTIST (female) in her scrubs with various operating tools floating around her.

SCIENTIST (CONT'D)
Ah, you're awake! Let's begin.
Don't worry. You're in good hands.
Just relax.

She grabs a floating knife.

SCIENTIST (CONT'D)
Calm down. Here. Just a little cut.

She slices the patient. A droplet of blood floats in the air. The Scientist **SLURPS** up the blood with a long, purple alien tongue.

SCIENTIST (CONT'D)
Mmmm. You taste sweet.

She **LICKS** her lips one last time.

END.
